## What's Been Happening At The Field

Finally ! Warmer weather is finally beginning to grace us with its presents ! Unfortunately this time of year warmer weather is accompanied by spring rains. And it seems that the rain has been falling on the week-ends as of late. I know that is hasn't slowed down some of the more hearty members of the club though. I haven't been able to get out to the field much these past couple of months but I am pretty sure that there has been some flying activity between showers. Last months meeting (March) was the last one at Shoney's until next winter. Our next meeting will be on Saturday April 12th at 2:00 PM at the club field. This months meeting will be another important one for the club and club members. We will be discussing the progress of plans for our annual Spring Fly-In, planning for the 2008 Mid America Combat Championships, mower maintenance, field up-keep, and various other issues. Thus far, 2008 has been very encouraging to me concerning club member attendance at our meetings. We have been averaging around 12 to 13 members at each one with lively participation by all. April, May, and June's meetings will all be important because the bulk of the planning and execution for two of the club hosted events will take place during those months. I hope to see everybody there.

The club also has an opportunity for some free publicity in the month of May. Danny Wheeler has been asked by the local Civil Air Patrol representative to put on a static display at on of the CAP shows. I am sure that the status of this event will also be discussed at the meeting on Saturday. Harry Wood will be supplying information as it becomes available.

One other note from Harry :

Gentleman : You will notice another a new work table at the field. I built this table for my personal use when I'm at the field flying. Other then that you can all share in the use of the table.

Thanks for your cooperation  
Harry

I have attached a picture of the table so that we'll

all know what it looks like. Nice work Harry !

I am looking forward to this months meeting and the upcoming flying season. Lets all pull together and support our upcoming events. See you all Saturday.
